Subject: Very happy with my insulation!

Hi there

I got thermguard insulation installed about four years ago and I have to tell you it was one of the best investments I've made. After a freezing winter and boiling summer in my new house, I installed your product and have had warm winters and cool summers ever since. Today is 40 C outside and a cool 27C inside the house. My kids so look forward to getting home from school in these hot summer days so they can at least cool down and relax.

So thanks a lot - it's a really great product.

Regards

Julia Janssens
