Mr. Mark Stannard
Thermguard (Pty) Ltd

We have recently installed the Thermguard product in our house at Kwawula. The results have been most impressive with a noticeable reduction in drafts, a more even temperature throughout the large house and a marked difference between inside and outside temperatures. I expect also that the new insulation will result in important savings in respect of oil space heaters, under carpet heating, fire wood and electric blankets. In short, the benefit far outweighs the cost.

We would be happy to recommend the Thermguard product to others.

Yours truly

Richard Thompson
