Subject: Insulation for Carter

Dear Paul.

Many thanks to your team which installed Thermguard in our home in Howick last week.

They were efficient and courteous, it was a pleasure to see them go about their business.

I had made an over estimate of the area to be insulated. Dean said he had some good news for me which led to a resultant decrease of 20% from the initial quote.

Thank you very much!

The insulation has shown that radiation from the ceiling board has decreased significantly, leading to cooler conditions in our home over these last few very hot days.

Thank you, Tony Carter.
